

Barbara Cole

I have been a Bow Martian since Spring of 1989. I served on the Board of Trustees in the mid-90s when Mary Carter asked me to run because of my experience in working for municipalities and private interests on land use, finance, and governmental management programs. Over the years, I have volunteered for countless Bow Mar activities, ranging from tennis, sailing, swim team, to bringing 'Apple Annie' to town so we could all hand press fresh apple cider from the prolific apple harvest of 2014. This past year I managed the preparation of the Bow Mar Comprehensive Plan with two other volunteers from the community. My hope is that the governance of Bow Mar remains simple, efficient, and transparent and reflective of the values expressed by its citizens last summer in a community wide survey, so that Bow Martians' quality of life can remain high. I remain a good listener.
